

Smart Farm Kits

Energy Monitoring Kit

This kit uses advanced tech to help farmers cut energy use and costs with smart insights.

What do I get in my free kit?

Electric meter data reader

Collects electric consumption data every 30 minutes.

Temperature & humidity sensor

Ideal for rooms in the house, cattle shed or cold store.

24 months portal access

Remote access, data visualisation, storage, and support.

Benefits?

- ✓ Better energy management
- ✓ Collect insights on gas consumption
- ✓ Monitor temperatures in real time
